

Enhancing Tribal Care Coordination

Use Case Number	Use Case Description
1.1	Log on to Universal Client at IHS.
1.2	Patient Search via the Universal Client at IHS (PDQ).
1.3	Document Query initiated via the Universal Client at IHS. This results in location of patient's Clinical documents from multiple facilities within IHS, and also from various external agencies across the NHIN.
1.4	Document Retrieve initiated via the Universal Client at IHS. This is a targeted request for retrieval of a specific Clinical Document that could be located at either an IHS facility or at an external agency across the NHIN.
